Military Spouse Employment Partnership

An Important Resource for Military Spouses

Military spouses face unique challenges when pursuing a career of their own, with time constraints and portability issues topping the list of obstacles. The Military Spouse Employment Partnership (MSEP) addresses these concerns by providing military spouses access to employment opportunities available with our corporate partners. This diverse and continually expanding network is in touch with the particular needs of military spouses in the workplace and is committed to assisting this demographic to launch and maintain successful careers. MSEP partner companies also recognize that today's military spouses provide their companies with skilled, educated and motivated talent whose strong values and work ethic are an asset to America's labor force.

MSEP's partners represent a broad range of industries and trades. With opportunities in finance, healthcare, retail, staffing, technology, and specialty areas, these organizations deliver a broad spectrum of career opportunities for military spouses.

"I have worked for H&R Block for five years at five different locations. The partnership between MSEP, H&R Block and other companies is great. This partnership has been a lifeline for me and my family. The free tax course enabled me to start as a seasonal employee- but now I work full time for H&R Block."
